

# ProFast8000-SG

## product sheet

SG-SMARTGLIDE INFUSED PREMIUM SKATING MATERIAL

Panels can be set up in a brick wall / offset pattern for greater joint strength

### Overview

ProFast8000-SG uses Very High Molecular Weight PE, sinter pressed and then machined to exacting standards. Both INFUSED SILICONE GLIDE plus dry SLIP additives are combined with the raw material resulting in the longest glide, and the highest overall performance panel on the market today. All ProFast products by SmartRink are treated for UV and can be used outdoors.

All SmartRink skating surfaces can be used for hockey, figure skating or recreation purposes. Although all the products are versatile there are applications to which they are better suited. If you are uncertain about which product to use please contact your nearest SmartRink representative.

**Lines & Markings:** Goalie crease, blue line, red line, goal line available on request

**Performance:** Professional series material featuring ICE-Y-BLUE 700™ makes this product 20%-30% faster than other well known brands for the entire life of the panel.

### Specifications

**Material:**

VHMWPe Sinter Pressed / Glide Infused

**Dimensions:**

1020mm x 1020mm x 8mm

1000mm center to center connected

**Weight:**

each panel is 8kg or 17.6 lb

**UV Protected:**

Yes

**Connection System:**

“SmartSnap” Dovetail

**Assembly:**

Edges have a dovetail joint for joining product together

**Warranty:**

Home Use: Lifetime

Commercial Use: 5 years
